RE: Support for Portland General Electric's Harborton Reliability Project (Case #4240019)

Dear Ms. Childs,

My name is Kevin Landreth. I am a proud member of the Roofers Waterprooferers & Allied Workers Local 49 and am writing in strong support of PGE's Harborton Reliability Project. I live in Portland OR

As a member of Roofers Waterprooferers & Allied Workers Local 49, In supporting my family I understand my ability to do so is directly based on the ability of our area to grow. PGE is a strong supporter of unions and projects that are built by union members, this a win for union members across the region whether I directly build the project or not. This project and future projects support high-road labor standards including the utilization of apprentices to build the next generation of workforce. My industry is dependent on strong economic growth within our region and state. Projects such as the Harborton Reliability Project contribute to the success of that economic growth and the addition of family wage jobs within our region.

I encourage the support of this project.

Sincerely,

Jan. 22, 2025

My name is Jeremy Owen. I am a proud member of the United Union of Roofers Waterproofers & Allied Workers Local 49 and am writing in strong support of PGE's Harborton Reliability Project.

Jeremy Owen

As a member of [Local 49, In supporting my family I understand my ability to do so is directly based on the ability for our area to grow. PGE is a strong supporter of unions and projects that are built by union members is a win for union members across the region whether I directly build the project or not. This project and future projects support high-road labor standards including the utilization of apprentices to build the next generation of workforce. My industry is dependent on strong economic growth within our region and state. Projects such as the Harborton Reliability Project contribute to the success of that economic growth and the addition of family wage jobs within our region.

I encourage the support of this project.

Sincerely,
